Pieter Leunupun, Thomas Aurima*

641-654

Welcome to the inaugural issue of the *International Journal of Integrative Sciences*, a platform dedicated to the interdisciplinary exploration of scientific knowledge and its applications. In an era where complex global challenges demand innovative solutions, we recognize the importance of integrating diverse scientific disciplines to foster a holistic understanding of the natural and social worlds.

This journal aims to bridge the gaps between traditional fields of study, encouraging collaboration among researchers, practitioners, and policymakers. By promoting integrative approaches, we aspire to generate insights that not only advance theoretical knowledge but also address real-world issues such as climate change, public health, and sustainable development.

Our commitment to excellence is reflected in the rigorous peer-review process that ensures the quality and relevance of the research we publish. We invite contributions from scholars worldwide, representing a variety of perspectives and methodologies. Through this collective effort, we hope to cultivate a vibrant academic community that values the interplay of ideas across disciplines.

As we embark on this journey, we extend our heartfelt gratitude to the authors, reviewers, and editorial board members whose dedication and expertise have made this publication possible. We are excited to share the pioneering research contained within these pages and look forward to the contributions that will shape the future of integrative sciences.

Thank you for joining us in this endeavor. Together, let us explore the intersections of knowledge and inspire innovative pathways for progress.

Happy Reading

Prof. Jen Peng Huang, Department of Information Management, Southern Taiwan University of Science and Technology
